

# Debunking Aviation Myths and Old Wives Tales

Ask 5 pilots a question and almost certainly you will get 5 different answers. Unfortunately, many of them will be based on long held myths or wives tales...and frequently are just wrong! This becomes a safety concern as pilots base decisions on information that isn't entirely correct. This seminar will dispel many of these myths leading to more safe and enjoyable flying.

**Directions:** At Centennial Airport on Peoria Rd, go straight south toward the control tower. The Ramada Hotel is just to the northeast of the control tower on your left (previously the Clarion or Gold Crown Hotel). The seminar will take place in the Arapahoe Room.

## A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
